

ETAS Secretary's Report 2020

2020 was a year when all teachers had to find new ways of working. The ETAS Executive Committee was no exception. We managed to have a face-to-face meeting in February, before turning to Zoom for the rest of the year. Despite everything, we were able to meet five times. We also organised an Extraordinary General Meeting, which allowed us to make provision to hold future General Meetings online. This work meant we could continue to function as an organisation and to offer events and other support to our members. As we look forward to 2021, we know there will be further challenges, but with new members joining the committee and the foundations built by Sue and Antoinette, we are optimistic that ETAS and our members will continue to connect, grow, and thrive.
